INTEGRATED QUALITY MANAGEMENT SYSTEM

Innovation and quality are built into the foundation of setral®. Already in 1997 we introduced a quality management system according to DIN EN ISO 9001. Many other measures in the area of quality management and process control followed. For us, quality also means awareness of our role in and responsibility towards society, the environment and, of course, our partners. setral® is committed to its stakeholders and keeps an eye on the scope of its actions. That is why corporate social responsibility and compliance are an integral part of our quality philosophy.

since 1997

DIN EN ISO 9001

We feel highly committed not only to use state of the art technology in our research laboratories, but also to reliably guarantee a high quality standard to customers of all setral® products.

since 2008

DIN EN ISO 14001

The environmental management of setral® meets the current requirements of DIN EN ISO 14001:2015 and is furthermore continuously optimised in order to meet tomorrow's requirements today.

since 2018

DIN EN ISO 21469

setral® is DIN EN ISO 21469 certified. This standard specifies hygiene requirements for the formulation, manufacturing, use and handling of lubricants that may come into incidental contact with food during usage.

CERTIFICATIONS AND REGISTRATIONS

We are part of the "Environmental and Climate Pact of Bavaria", an initiative of the Bavarian State Ministry for the Environment and Consumer Protection. The Climate Pact of Bavaria is an initiator for new methods and topics with the aim of a sustainable development of Bavaria in its global context.

setral® products meet the strict specifications of the internationally active organisation for product registrations such as NSF International, blue angel.

setral® product range includes numerous food industry lubricants, which are certified according to Kosher & Halal.
